

Dear Valued Dynamark Dealer,

We want to share a roadmap with upcoming milestones as we continue integrating into Becklar's ecosystem. We have been working diligently with Keith, LaMar, Donia, and the Hagerstown team to ensure that we are prepared for the transition. Given the groundwork that has been done, and the information we have from the team, we expect the conversion go-live date to be **June 16th, 2026**.

Over the next two months, we will prepare you to make the most of the new services and will provide critical information regarding key transition milestones. Please read the frequent emails from noreply@becklar.com. These will include [eLearning modules for the Becklar Portal](#) and training material for the [mobile Becklar App](#).

- Billing information
- Announcements and dates for multiple training webinars. Please take advantage of these live trainings.
- Account and procedural changes for your companies and customers
- All other relevant information needed to ensure our collective success through this transition.
- Please become familiar with Becklar's products and services by clicking the links in this email or visiting [our website](#).

As we approach the go-live date, you can expect to hear from us at least weekly. We at Becklar, in conjunction with the Hagerstown team, look forward to providing you with all we have to offer as we complete the migration.

We look forward to serving you.
